PART 1

THE CONCEPT.

At Nestive Production, we put our expertise at the service of DJs and music producers, helping them grow their image, visibility, and career.

We combine multicam video capture, professional photography, and the creation of social media-friendly content (TikToks and Reels) to deliver a strong, cohesive visual strategy.

Social media growth can range from around 5,000 to 20,000 new followers per month, depending on posting consistency, content relevance, and audience engagement.
Our formats are designed to grab attention within seconds and drive virality across platforms like TikTok, Instagram, and YouTube Shorts.

PART 02

MULTICAM.

We offer high-quality multicam recordings during your club or festival sets. Each video is carefully edited to reflect the intensity of the moment:

- Syncing with musical highlights
- Added sound design, zooms, and speed ramps
- Long-form versions for YouTube, and teasers or highlights for Reels/TikTok

We've already worked with artists like Martin Garrix, Charlotte de Witte, Francis Mercier, and Mont Rouge on this type of project.

SHOOTING PHOTO.

Our photo shoots are designed to highlight each DJ's unique artistic identity.

- **Live shots** : Capturing the intensity and energy on stage
- **Artistic portraits** : Powerful visuals for press, social media, covers, or tour visuals
- **Backstage & lifestyle** : Showcasing behind-the-scenes moments and the human side of the artist

We carefully craft lighting, color, and composition to deliver striking visuals tailored to the electronic music scene.
